

Reach thousands of candidates in one click, fill your funnel with qualified talent in 24 hours or less

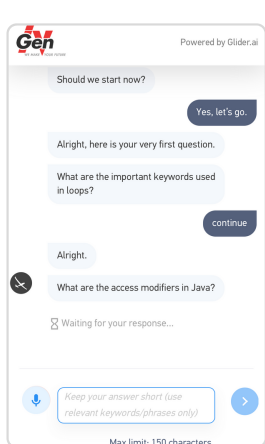

AI-powered ScreenBot automates outreach and engages with your candidates to determine fit. Skip the phone screen to get to the next step faster.

Completely customizable, set-up ScreenBot to ask relevant questions that address the nuanced requirements of the job, whether tech or non-tech, helping you sort through high-volume applications.

1. Automate outreach
2. Gauge intent
3. Collect info
4. Evaluate skill
5. Record interview
6. Capture availability

The ultimate in human-like engagement, auto-screen candidates in 5-minutes

Available across desktop and mobile, ScreenBot is easy to implement and offers candidates a superior experience when applying for your job, reflecting well on you and your brand.

ScreenBot seamlessly integrates into your workflows, systems and more to allow for a streamlined approach to vet candidate quality, report on team interview performance, and whom to shortlist.
