

Grow your business with reliable invoice financing solutions

Scale Funding offers custom solutions designed specifically to support staffing agencies' needs to run their business efficiently and profitably.

What is invoice financing?

The biggest challenge staffing agencies face is meeting weekly payroll when it takes 15 days, 30 days, or even 60 days for customer payments. Invoice financing provides instant cash flow so your agency can grow without limits. The process works by selling your open receivables to a funding company in exchange for an immediate cash advance.

Benefits of invoice financing with Scale Funding

How to get started with funding for your staffing agency

1 Temporary employee works assignment at the client company.

2 Staffing Company creates an invoice including timecards, billing the client company for the work completed.

3 Scale advances staffing agency up to 90% of the invoice value via wire or ACH the same day.

4 Client company processes the invoice in their normal course of business and pays the invoice to Scale.

5 Scale processes the payment and remits the invoice balance, less our fee, to the staffing agency.
